BESCHREIBUNG

- Located in a famous neighbourhood of St Tropez, villa Ste Anne is only a few minutes away from place des Lices, of the Port as well as Pampelonne beaches.

- This huge residence is ideally laid out, between the main and the guest houses. On the ground floor are a big living-room and a beautiful dining-room. There is also a wonderful veranda lounge opening on the terraces and the garden. Here are the kitchen and a single room as well. On the stair, three double room (of which the master's one) have their own bath and shower rooms and a beautiful dressing.

Two other parts are each independant of the house. In the first part, a kitchen, a shower room, a twin bedroom and a double one. In the second one, a living room, a kitchen, a double bedroom and a shower room.

- The interior decoration of villa Ste Anne, neo-provençal, is fancy and the house very well looked after. The comfort is optimal.

- The landscaped garden is of the most pleasant and invites to relaxation.
