

PRIVATE HOME, BEAUVALLON

300 M2
5 ROOMS
SEAVIEW
POOL
AIR CONDITIONING

DESCRIPTION

This audacious construction combining glass and concrete offers a marvelous view on the sea and Saint Tropez. It is adapted to new ways of life, between inside and outside... it merges with surrounding nature in the middle of a luxurious garden.

The spacious entrance leads to the kitchen, the dining room and two very bright rooms.

A big terrace surrounded by trees allows to enjoy mediterranean meals.

From the outside, is an access to a delightful third room for three people opened on the garden.

Going upstairs provides access to the living room, to the master bedroom and to the swimming pool ; two terraces allow to make the most of the sun and the beautiful view on the sea, unless you prefer refreshment in the shade of the summer terrace.

The vegetation hides a surprise: a luxurious and independent double bedroom has been carefully arranged. In the evening, the night envelops this real cocoon and you can fall asleep soothed by nature's songs.
